

Chapter Rifle-Pistol Shoot & Picnic

by LTC Mike Wisniewski

Beautiful weather, ideal temperature, sunny skies, delicious pulled pork sandwiches with assorted salads and desserts — what more could you have expected for the Second Annual MSVC Military Rifle and Pistol Shoot and Picnic? The event was held at the Vienna Fish and Game Club on Youngstown Kingsville Road (Route 193) in Vienna across the street from the Youngstown Airport. This facility has approximately 138 acres of ground, a club house with bathrooms and a kitchen, indoor firing range, maintenance shed, pistol and rifle ranges, archery range, trap shooting ranges, and a small lake stocked with bass. Bruce Bille is a member of the Vienna Fish and Game Club resulting in a reduced rental for the MSVC. Bruce also acted as the Range Safety Officer and organized the weapons and ammunition sign-up. To help insure adequate types of ammunition was available, arrangements were made with Stocker's Gun Shop located on 5199 Mahoning Avenue in Champion to have representatives come to

Coming to YARS in September

Lt Gen Atkins, President of MOAA Keynote Speaker at Convention

Lt Gen Dana T. Atkins, USAF, Ret., President and CEO of MOAA will be the banquet speaker at the Ohio Council of Chapter Convention on September 23rd at Youngstown

Air Force Reserve Station. Atkins became MOAA's ninth president in 2016. He succeeds Vice Adm. Norbert R. Ryan who presented MSVC their charter in 2012. Atkins had been the president of Chronicle Media, a large communications company providing print and digital media products in the Augusta, Ga., metro area, since his 2012 retirement from the Air Force.

COL Terri Coles, USA, Ret., Senior Director, Council and Chapter Affairs will also be in attendance during the

Ohio Council of Chapter Convention at YARS. Coles became director in 2017. She was deputy director in MOAA's Transition Center upon her retirement in 2012 from the

Army. She will provide brief comments to the attendees on Saturday, September 23rd. On Sunday morning, she will be doing a presentation to the Ohio Council members.

The purpose of the State Convention is to provide valuable information and camaraderie opportunities for chapter members. This year's focus is on the contributions of the various uniformed services in Ohio. See pages four and five of this newsletter for detail information and registration form.

President's Ponderings

by LTC Gary Williams

If you weren't able to attend the MOAA-MSVC shoot-out on July 27th, you missed a fabulous opportunity to enjoy an evening of excitement, fun, fellowship and food! On top of all of that was that it was just a truly beautiful summer evening! Lots of events ahead though, our next regular meeting is the steak fry/corn roast on August 24th, and; of course, the Ohio Councils of Chapter State Convention to be held on September 22–23 at YARS which is hosted by US. **Please try to attend, we need a strong show of support from our local chapter for this event!**

Lastly, I want to congratulate each and everyone of you for helping this chapter achieve a five-star rating in 2016! It's the highest MOAA award a chapter can receive, and it is the first five-star this chapter has received since being chartered! MOAA received 176 Level of Excellence submissions, (LOE) with 125 receiving five-star honors and 41 receiving four-star honors. When MSVC submitted the LOE in March, there were 25 different chapter individuals mentioned that are involved with military/veteran engagements in our communities. Without your support and help, it would not be possible! So, keep it up, and keep on keeping on!

Open House for USO Care Package Distribution Facility

The USO of Northern Ohio is headquartered in Cleveland, and in order to better provide support to military members from eastern Ohio, established an office on-site at the Youngstown Air Reserve Station (YARS) along with a USO Activity Lounge also at YARS.

Our latest announcement: We just opened a Care Package Distribution Facility in Howland, from which we ship care packages weekly to overseas-deployed service members from the 31 northernmost counties of Ohio which we service. Northern Ohio is one of the few chapters which ships packages directly to our deployed service men and women.

We are inviting you to attend an **Open House at our facility located at 160 Clifton Dr NE, Warren (Howland), on Saturday, August 26th, from noon–4:00 p.m.** Please come out to learn more about the USO mission, the impact of our Care Package Distribution Facility, and show your support for our troops! USO Volunteers will be on hand to answer your questions and provide refreshments.

If you know anyone who is deployed, or will be deploying, overseas, please contact us so we can add them to our recipient list. We want to support as many of our dedicated military members as possible and keep them connected with home and family.

Thank you for your continued support. Hope to see you on August 26th!

this event, including Ms. Stocker, the owner's daughter, who manages the shop. Greatly discounted ammunition of all calibers was available for purchase. Some members took advantage of the huge price reduction and stocked up ammo from Stocker's. In addition, some gift give-ways—pistol key chains, American flag patches, hats, and penlight flashlights, Stocker's provided two gift baskets for a raffle prize—one for a male winner and one for a female winner. Thank you, Stocker's, for supporting our event. Their gun shop really has one of the largest selections of firearms in the Tri-County area.

Who said women can't shoot? Florence Hosler and Janet Oglesby has similar results after a 5 minute lesson from Ms. Stocker and Pam Karousis. Next year Pam offered to give the ladies lessons at the pistol range, separate from the rifle range. She has the safety protection and pistols for our use.

Pam Karousis, a member of the Vienna Fish and Game Club and the trainer for the women's league known as "A Girl & a Gun Women Shooting League" gave the lady shooters some individualized instruction and allowed them some unfettered shooting time away from the "boisterous and intimidating" male figures. All told there were approximately 20 MOAA members on the range with a few more in the Clubhouse preparing for the picnic.

Although summer is a time for family vacations and understandably many of our members weren't able to come and do some "fun stuff" with either your own personal firearm or to borrow any of the variety of rifles and pistols that were provided. If you weren't able to come, you missed out on a great day and a fun activity, great food, and with minimal cost. Kuddos to the folks who planned and organized this event.

In November 2017, Ohioans will be asked to vote on a flawed, deceptive ballot issue that could raise prescription drug prices and limit access to needed medications for military veterans. It's bad for veterans and bad for taxpayers. Veterans' organizations should oppose it.

Under federal law, the U.S. Department of Veterans Affairs (VA) receives discounted pricing on prescription medication from drug manufacturers. The ballot issue, put forth by a controversial California activist, proposes a new law that calls for the state of Ohio to pay no more for prescription medications than the lowest price paid by the VA. The proposed law would apply to programs that serve public retirees and state workers, Medicaid beneficiaries, injured workers, prisoners, patients in state university hospitals, and others. It does not apply to the majority of Ohioans with private health coverage.

Experts have concluded this proposal is unworkable and cannot be implemented. An almost identical version of the proposal appeared on the November 2016 California ballot as Proposition 61, and was defeated. More than 30 veterans groups in California were among 200 opposing organizations, including doctors, business, labor and patient groups. Every major newspaper opposed Prop. 61.

Impossible to Implement

The VA is not required to disclose how much it pays for medications. That means state entities would not know what benchmark to meet. But if Ohio voters approve the ballot issue, state officials would be legally required to implement the new law, forcing them to challenge the VA for information and taking up resources both the state and the VA could put to better use.

How much the VA pays for any particular drug is a moving target. In addition to specified percentage discounts, the VA frequently gets additional rebates from drug manufacturers, credit for volume purchases and other deals. These change periodically and are not disclosed by either the VA or the manufacturers.

The VA Says the Misleading Rx Proposal Will Raise Costs for Veterans

The VA itself said in a 2016 issue briefing that these additional discounts are likely to be eliminated by pharmaceutical manufacturers if VA pricing is extended to other entities like state governments. The briefing estimates an increase in VA prescription drug costs of \$3.8 billion a year, if the proposal is voted into state law.

The US General Accountability Office (GAO) has on several occasions examined the issue of extending VA discounts to

other programs and warned that a mandatory extension could undermine the VA's ability to obtain favorable pricing for drugs and the limit the availability of some medications to the VA. In 2000, the GAO advised against including Medicare in the VA's pricing structure for this reason.

Military Families are Already Paying More

Already, veterans in Ohio and across the country are seeing rising costs. As part of the 2016 National Defense Authorization Act, Congress voted to increase co-pays that military retirees and dependents of active duty military pay out of pocket by 25%. If the ballot measure passes and VA and DOD drug costs go up, we can expect added pressure to increase prescription drug co-pays that veterans, military retirees and dependents of active duty military have to pay out of pocket. That would affect more than 866,000 veterans, active duty military, and military retirees residing in Ohio, plus 21 million veterans nationwide who have served our country.

Alternatively, the VA and DOD could deal with higher drug costs by deciding to omit certain drugs from their formularies – limiting veterans, military personnel, and retiree access to needed medications.

There's No Benefit for Ohio Taxpayers

Medicaid and other state entities already use percentage discounts and rebates when purchasing medication. Should voters approve the ballot proposal, these existing contracts would cease, with unknown costs and complications for Ohio taxpayers. The administrative costs of trying to implement an unworkable law would fall on Ohio programs that serve vulnerable populations such as people who are developmentally disabled, people with mental illness, newborn infants, injured workers, the elderly and other Ohioans.

The VA's Program is Designed for Veterans

The Veterans Healthcare Act enables the VA to provide medical care including prescription medications to our nation's military veterans in recognition of their service. The discounts mandated in the Act were never intended to be extended to states. The program is also designed to meet the needs of the military population and the drugs included reflect that.
